Today's Schedule

Students Katowice

- 7⁰⁰ - 9⁰⁰ breakfast at the hotel
- 9⁰⁰ - 12³⁰ free time and group activities at the hotel
- 12³⁰ - 14⁰⁰ lunch at the hotel
- 14³⁰ - 20⁰⁰ theoretical problems
- 20³⁰ - 21³⁰ dinner at the hotel
- 22⁰⁰ - 23⁰⁰ getting acquainted with the Planetarium hall

Leaders Kraków

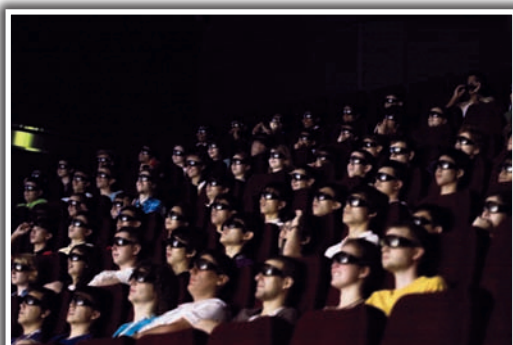

- 6³⁰ - 7³⁰ breakfast at the hotel
- 8⁰⁰ - 16⁰⁰ trip (lunch during the trip)
- 17⁰⁰ - 19⁰⁰ the discussion of observational tasks and Planetarium tasks
- 19⁰⁰ - 20⁰⁰ dinner at the hotel
- 20⁰⁰ - 23⁰⁰ further discussions; the translation of observational problems and Planetarium tasks

Virtual visit to HST

A virtual travel to the verges of the universe has already finished. Sorry, that's a mistake – it wasn't a virtual travel. Photos used in a "Hubble 3D" film were authentic. They were made by a cosmic telescope Hubble placed in the orbit 21 years ago. The participants of 5th International Olympiad on Astronomy and Astrophysics could not only see how the most distant stars and nebulae and even the inside of the cosmic Hubble telescope looks like. One of the astronauts, unscrewing the screws in the state of weightlessness said that doing that requires "zen approach" and concentration on each of the elements separately. Will the students take the same approach towards the tasks that await them?

the photos by Damian Jableka

Team tasks in Chorzów

The problems were delivered by the security service, the hall was prepared, the telescopes were set. The rivalry has already begun. That is the first day of the olympic competitions. The participants are concentrated and... ready to roll!
